## IT Consultant

### SUMMARY

Developer with experience in Integration Services, Digital Transformation and Cloud focused on the development of middleware for national and international clients using mainly Microsoft's Azure Integration Services. Experienced in leading small teams.

### EXPERIENCE

#### IT Consultant

Apr. 2023 - *Current*

Singularity D.E., Lisbon (Portugal)

Consultant in *outsourcing*, focused on development, analysis, and refactoring of integration solutions, focused on Microsoft's Azure Integration Services, with strongest focus on Logic Apps and its connectors.

#### Experienced Programmer

Aug. 2022 – Apr. 2023

Deloitte Consulting, Coimbra (Portugal)

First experience as Team Leader. Determination of project requirements, functional analysis, delegation, technical proposals. Made a number of changes to improve Quality of Work in the team and set good practices standard that were non-existent with prior leaders.

Development of middleware in Microsoft Azure with Logic Apps, Liquid Template Language, and Azure Functions. Major key moment was the development of an integration for the daily communication of prices with complex cross-reference of information which led to a fantastic performance which exceeded client's expectations.

#### Junior Programmer

Sep. 2021 – Jul. 2022

Deloitte Consulting, Porto (Portugal)

Development of middleware in Microsoft Azure with Logic Apps, API Management Services, Keyvault, Azure Functions, and Liquid Template Language. Use of Terraform for deployments.

First look at writing High-Level Designs, participating in estimations and User Story allocations.

### EDUCATION

#### **Bachelor's in Computer Science;**

2017 – *current*

Instituto Superior de Engenharia de Coimbra, Portugal

- Part of the Course's Commission as a Student Representative

#### **Bachelor's in Computer Science – European Course;**
